

Unimas-Medic abides by Labour Ordinance in closing clinics

KUCHING: The welfare of the staff of Sebayor Medical Center and Klinik Unimas Sebayor which are run by Unimas-Medic Sdn Bhd, a subsidiary of Unimas Holdings Sdn Bhd, will be taken care of when both clinics cease operation today (July 1).

Disclosing this on Saturday, Unimas Holdings' newly-appointed general manager Dr Harry Entebang said closure of the clinic in Kuching and its branch in Kota Samarahan were purely due to business reasons.

He said the affected employees were informed about the impending closure during a staff meeting on June 21, and they accepted the reasons given in good faith.

Dr Entebang stressed that contrary to what was reported in The Borneo Post last week, Unimas-Medic was not wound up on June 28. It will only cease operation of their two clinics.

The company had taken all measures to ensure that all relevant laws are complied with, he added.
